18 December 1952

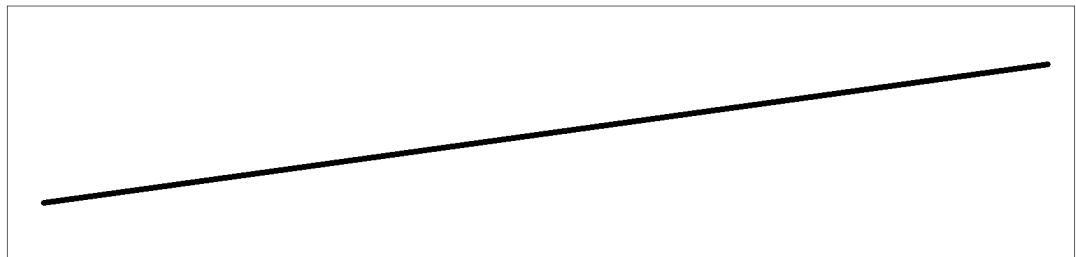

MEMORANDUM FOR: Deputy Director of Training

SUBJECT: Supplement to Programs Division's Progress Report for
the Week of 12-18 December, inclusive.

Requests for nominations for the Naval Intelligence School and Intelligence Staff Officers School convening on 6 January 1953 and 19 January 1953 respectively went to the Training Liaison Officers on 16 October 1952. We have received one application for each course. The applicant for Intelligence Staff Officers Course, USAF seems ideally qualified. There is some question in regard to applicant for the Naval Intelligence School.

The Registrar has checked with each office to determine if others will apply. Results are negative. I have queried most of the offices and am advised, unofficially, that they cannot spare the people for these five month or longer schools. It appears that we are reaching again that point where a command decision must be made relative to the value of external training. We have operated on the premise that only people who could not be spared from their jobs should be selected for schools.
